

1. Designed for comfort with durable center-fixed padded shoulder straps with waist belt and an ergonomic air-through tank back for cool and comfortable carrying
2. Adjustable and flat-fan nozzles accommodate a variety of applications
3. User friendly large-mouth tank for non-splash filling, a left- or right-hand pumping option and a large pressure chamber requiring less pumping strokes

The versatile TL40D backpack sprayer is great for the professional lawn and garden contractor. It is suited for applying a variety of liquid chemicals including fertilizers, herbicides, insecticides and pesticides. This 4-gallon Commercial Series unit has chemical resistant Viton® seals which protects the user from potential leaks and ensures longer pump life. The TL40D is extremely durable, easy to use, and simple to maintain.
